HONORARY DEGREE
DOCTOR OF LAWS
JAMES LARNARD FERGUSON

James Larnard Ferguson has distinguished himself through outstanding leadership of one of the nation's most respected corporations and in an active role of promoting greater private support for higher education.

Mr. Ferguson is Chairman of the Board and Chief Executive Officer of General Foods Corporation, the world's largest United States-based company operating solely in the food area. It is an \$8-billion-plus multinational corporation, employing 56,000 people and producing some 1,200 food products.

His corporate management role has given him an excellent opportunity to rally America's corporate community on behalf of higher education's financial needs. He is well-known as a strong supporter of the mission of our academic institutions and what they mean to the prosperity of the nation.

During his tenure as chairman of the Council for Financial Aid to Education, which encourages and monitors private support for higher education, he worked to increase public awareness of corporate support to higher education with an optimistic message about its future. The Council has been highly successful in helping to raise the level of corporate support of higher education.

He called on his colleagues in the corporate world to review their corporate contributions programs to be sure they were doing as much as they reasonably could. He has said that what business and industry do for colleges and universities, they do ultimately for all the people.

And he has underscored how vitally important it is for corporations to help academic institutions maintain excellence in undergraduate and graduate instruction and in the basic research that undergirds so much of our technological progress.

Mr. Ferguson has been with General Foods Corporation for 21 years. He was born in Evanston, Illinois, and is a graduate of Hamilton College, where he is a Trustee, and the Harvard University Graduate School of Business Administration. He serves on the Board of Managers of The New York Botanical Garden and is a member of the Board of Governors and chairman of the National Financial Development Committee of the American Red Cross. He is married to Esther Baskin Ferguson of Summerton, South Carolina, a leader in her own right in the field of private and voluntary support.

It is a special privilege to honor this good friend of higher education and of Clemson University, and to express our most sincere appreciation for all that he has meant to higher education's well-being and continued advancement.

Clemson is proud to present the honorary Doctor of Laws degree to James L. Ferguson.

HONORARY DEGREE

DOCTOR OF LAWS

WILLIAM HENRY KINARD

William Henry Kinard is a South Carolinian and Clemson alumnus who is helping to keep America number one in space research and exploration.

He joined the National Aeronautics and Space Administration in 1955, the year following his graduation from Clemson with a Bachelor of Mechanical Engineering degree.

Today at the Langley Research Center at Hampton, Virginia, he is NASA's chief scientist for a research project he conceived and developed to study the effects of exposure in the environment of space.

The product of Bill Kinard's idea is a 12-sided, 11-ton rack which is now circling the Earth and carrying the experiments of 200 investigators. The experiment, known as the Long Duration Exposure Facility, was placed into orbit by a space shuttle flight last April 6th. It will be retrieved by another shuttle crew next February, and the many investigators will be able to do the analyses of their experiments in their own laboratories.

His leadership in the development of many other significant space experiments is well-known, particularly with regard to his work on the Meteoroid Detector Experiment for Pioneer 10 and 11, and Pegasus and the Meteoroid Technology Satellite.

He is recipient of the NASA Medal for Exceptional Scientific Achievement for the Pioneer Ten Mission to Jupiter; the NASA Public Service Award for the same mission the Langley Research Center Special Achievement Award for his studies of meteoroid penetration measurements during interplanetary space flight; the NASA Achievement Award for his work in the Pegasus program; and the NASA Achievement Award in the Apollo program.

Mr. Kinard is the author or coauthor of 36 scientific papers and holds five patents for research instruments. His 1975 paper entitled, "Interplanetary and Near-Jupiter Meteoroid Environments," was chosen as the Outstanding Publication of the Space Directorate.

Bill Kinard has used his Clemson education to advance mankind's knowledge of his planet and the worlds beyond, and in so doing, has brought great credit to both himself and to this institution which proudly honors him today.

Bill Kinard the space scientist is well-known among his colleagues, but there is another side which he also enjoys that probably brings him as much personal satisfaction as his professional achievements. He is concerned about people in need, especially troubled youth, and has reached out to help and encourage them. Bill and his wife, Becky, have opened their home and their hearts to the young people of the Williamsburg, Virginia, area who have alcohol and drug problems. They have given countless hours in their home to counseling youth about their problems.

It is a special privilege for all of us at Clemson to honor him with the presentation of an Honorary Doctor of Laws Degree in recognition of his distinguished scientific achievement and his sincere concern for the welfare of his fellowman.

CANDIDATES FOR DOCTORS' DEGREES

ARNOLD EDWARD SCHWARTZ, Dean, Graduate School

COLLEGE OF AGRICULTURAL SCIENCES

DOCTOR OF PHILOSOPHY

Agronomy

James Edward Struble _____ Orlando, Fla.
B.S., M.S., University of Florida
Dissertation: Spore Production by Vesicular-Arbuscular Mycorrhizal (VAM) Fungi and Plant Response to Inoculation with VAM Fungi

Nutrition

Thomas Wigington Gettys _____ Due West
B.S., Lander College; M.S., Clemson University
Dissertation: A Study of Carcass Composition, Growth Efficiency and Metabolic Hormone Profiles Among Sex Phenotypes in the Bovine

Plant Physiology

James Reed Brooks _____ Steubenville, Ohio
B.S., Ohio State University; M.S., Clemson University
Dissertation: Methods and Effects of Phytate Removal on the Physico-Chemical Properties of the Major Storage Proteins of Soybean Seeds

COLLEGE OF ENGINEERING

DOCTOR OF PHILOSOPHY

Engineering

John Thomas Coates, Jr. _____ Bridgeport, Ala.
B.S., Middle Tennessee St. Univ.; M.S., Clemson University
Dissertation: Sorption Equilibria and Kinetics for Selected Polychlorinated Biphenyls on River Sediments
(Field of Specialization: Environmental Systems Engineering)

Sumnesh Gupta _____ Kotputli, India
B.S., Panjab University; M.S., Clemson University
Dissertation: Computer Simulation of Dense Fluids and Mixtures (Field of Specialization: Chemical Engineering)

Robert Alan Johnson _____ Clemson
B.S., M.S., Clemson University
Dissertation: An Analysis of Constant-False-Alarm-Rate (CFAR) Radar Detectors in Non-Homogeneous Distributed Doppler Frequency Interference (Field of Specialization: Electrical Engineering)

Michael Vincent Minnick _____ Seneca
B.S., Clemson University
Dissertation: The Time-Optimal Control and Modeling of Chemical Processes (Field of Specialization: Chemical Engineering)

Hossam Nasser Mohamed Aly _____ Alexandria, Egypt
B.S., University of Alexander Engr.; M.S., University of Notre Dame
Dissertation: An Analytical and Numerical Study of the Buckling Behavior of Fiber-Reinforced Beams
(Field of Specialization: Engineering Mechanics)

Joel Poinsett Porcher, Jr. _____ Charleston
B.S., M.S., Clemson University
Dissertation: A Laboratory Investigation of Low Temperature Mechanical Properties and Thermally-Induced Fracture of Selected Polymer-Modified Roofing Bitumens (Field of Specialization: Civil Engineering)

Shih-Hong Wang _____ Taipei, Taiwan
B.S., M.S., National Taiwan University
Dissertation: Analysis of a Desiccant Aided Evaporative Cooling System (Field of Specialization: Civil Engineering)

John Herbert Zirscky _____ Parkville, Mo.
B.S., University of Tennessee; M.S., Utah State University
Dissertation: Spatial Analysis of Hazardous Waste Data Using Geostatistics (Field of Specialization: Agricultural Engineering)

COLLEGE OF SCIENCES

DOCTOR OF PHILOSOPHY Chemistry

Marsha Elizabeth Daman _____ Hermon, N. Y.
B.S., Bob Jones University
Dissertation: Structural Studies of Metal Ion-Carbohydrate Interactions Involving Biologically Relevant Compounds

Stephen Edward Emery _____ Fayetteville, N. C.
B.S., Western Carolina University; M.S., Clemson University
Dissertation: Deuterium Spin-Lattice Relaxation Studies on Perdeuterated Tetracosane and Investigation of the Nematic Solvent Effects on the Quadrupole Coupling Constant of Deuterated Acetylene

Richard Victor Gregory, Jr. _____ Virginia Beach, Va.
B.S., Old Dominion University
Dissertation: Application of Laser Raman Line Shape Analysis to the Determination of the Deuterium Nuclear Quadrupole Coupling Constant

Robert Elsbury Hardy _____ Gainesville, Ga.
B.S., North Georgia College
Dissertation: Studies of Glycophorin A and Related Model Compounds Using Carbon 13 Nuclear Magnetic Resonance Spectroscopy

Liang Shiu Lee _____ Kaohsiung, Taiwan
B.S., National Tsing Hua University
Dissertation: Photochemistry of Transition Metal Complexes of Iron (II), Cobalt (III) and Rhodium (III)

Mathematical Sciences

Steven Curtis Patch _____ North Haven, Ct.
B.A., University of Connecticut; M.S., Clemson University
Dissertation: Tests of Goodness-of-Fit Based on the Empirical Characteristic Function

George Ernest Schnibben _____ Florence
B.S., Francis Marion College; M.S., Clemson University
Dissertation: Polynomials and Polynomial Functions on Infinite Algebraic Extensions of Finite Fields and Their Related Algebras

Zoology

Dennis Edward Kyle _____ Chattanooga, Tenn.
B.A., University of Tennessee, Chattanooga
Dissertation: Seasonal Distribution of Potentially Pathogenic Free-living Amoebae in Freshwater Lakes: Relative Importance of Planktonic, Benthic, and Neustonic Habitats

CLEMSON ALMA MATER

A. C. Corcoran, '19

Where the Blue Ridge yawns its greatness,
Where the Tigers play;
Here the sons of dear old Clemson
Reign supreme alway.

Chorus

Dear old Clemson, we will triumph
And with all our might,
That the Tiger's roar may echo
O'er the mountain height.

We will dream of great conquests,
For our past is grand,
And her sons have fought and conquered
Every foreign land.

Where the mountains smile in grandeur
O'er the hill and dale,
Here the Tiger lair is nestling
Swept by storm and gale.

We are brothers strong in manhood,
For we work and strive;
And our alma mater reigneth
Ever in our lives.
